U.S. Patent and Trademark Office PTOL-413 (Rev. 04-03) Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: If applicant wants to continue to prosecute this application it was strongly incourage he obtain a registered Patent Attorney to advise him. Looking over the application the examiner is not clear what protection applicant is tryign to obtain and there appears to be inadequate description of parts of his invention and therefore it might be best to file a Continuation-in-part of this application or a totatally new application since this application is technically abandoned for failure to send in a proper response to the final office action back in April of 2005.
